

WORKSHOP

„NEW SUPPORT SYSTEM FOR BIOGAS AND BIOMETHANE PRODUCERS“

14 MARCH 2018

**Gas Training Center of the Polish Oil and Gas Company (PGNiG)
Kasprzaka 25, Warsaw, Poland**

At the end of last year the European Commission approved a Polish renewable energy scheme. The scheme, with a total budget of PLN 40 billion (around €9.4 billion), will grant State support to producers of electricity from renewable sources. Beneficiaries will be selected by means of competitive auctions. The first two rounds took place in December 2016 and June 2017 and additional auctions will be organised until 30 June 2021. Under the scheme small installations with a capacity of up to 500kW can benefit from a feed-in tariff and installations with a capacity of more than 500kW will receive a premium on top of the market price of electricity. The rules for using the new support system by biogas plants will result from the act on renewable energy sources after the amendment, on which the work in the Sejm begins.

The Union of Producers and Employers of Biogas Industry together with the experts from the law office BTK Legal and Operator Systemu Aukcji (Auction System Operator) invite you to participate in workshop on the latest changes in the support system for biogas and biomethane producers. Practical aspects related to the participation of biogas plants in the auction system as well as in the FiT and FiP system will be the main topics of the workshop. There will also be information on other regulations in the field of agricultural and energy law affecting the operation of biogas plants.

PARTNERS:

BTK

KANCELARIE PRAWNE
BOROWICZ · TARKA · KUŚ

ORGANISER:

The Union of Producers and Employers of Biogas Industry (UPEBI) is the largest Polish organisation associating biogas and biomethane companies, which has been successfully working for the development of the biogas industry for over 5 years.

Conferences and workshops organised by UPEBI are meetings with entrepreneurs involved in biogas production and investors seeking information on the possibilities of using biogas and biomethane. It is an opportunity to make personal contacts and to know the recipients' needs.

SPONSORSHIP OFFER

We are pleased to present you a sponsorship offer. We believe that working with us can bring business benefits to your company. Our workshop gives you a unique opportunity to present services and products to around 80 entrepreneurs seeking information on the current support system for biogas and biomethane producers just before the announcement of the auction for sale of electricity generated from renewable energy sources in Poland.

STRATEGIC SPONSOR OF WORKSHOP

Price: **€ 2000**

As part of the sponsorship package, we offer:

- Workshop Strategic Sponsor title (we offer up to 2 titles of the Workshop Strategic Sponsor)
- free participation in workshop for 2 persons
- opportunity to present the Strategic Sponsor's offer during the workshop
- possibility of distributing Strategic Sponsor's materials at the organisers stand or distributing Sponsor's materials in workshop packages
- official acknowledgements for Strategic Sponsor during workshop
- possibility of displaying Strategic Sponsor's roll-up or wall advertising in conference room
- Strategic Sponsor's advertisement on the website www.upebi.pl

We are confident that you will be very satisfied with the services that we offer.

We look forward to working with you.
